

# When MIOSHA Visits

## 1 Who Should Attend . . .

This program is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about liability and workers' compensation costs
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work
- ▶ Business owners who want to learn about compliance with MIOSHA

## 2 Why You Need This Workshop . . .

- ▶ To reduce disabling injuries and illnesses to employees - and to ensure that every worker goes home safe and healthy every day.
- ▶ To reduce the high direct costs of work-related injuries, which grew to \$42.5 billion nationally in 2000, and indirect costs, which were estimated at an additional \$127 - \$212 billion in 2002. (*2003 Liberty Mutual Safety Index.*)
- ▶ To enhance your company's bottom line. A strong safety and health commitment not only protects workers, it also reduces worker's compensation costs, improves employee morale, and increases production and quality.

## 3 What You'll Learn . . .

Attendees will gain an insight of the process and procedures a MIOSHA compliance officer follows while conducting a workplace inspection and how to respond to MIOSHA citations. Topics covered include inspection types, employer/employee rights and responsibilities, penalty reduction factors, and common MIOSHA violations. The elements of a written safety and health management system are presented in detail. Preparing for an inspection is emphasized.

### Agenda

*We offer a flexible program agenda to emphasize the topics you want most.*

- ▶ MIOSHA Overview
- ▶ CET Services
- ▶ MIOSHA Inspection Process
- ▶ MIOSHA Appeals Process
- ▶ Informal Settlement Agreements

# Facilitator

Anthony Neroni was promoted to Occupational Safety Consultant with the Consultation Education and Training Division in January 2003. He has over 20 years of service with the State of Michigan including: 6 years with the Michigan Department of Transportation; 12 years as an Occupational Safety Inspector with MIOSHA, his last 2-1/2 years as Senior Safety Officer. Senior Officers are used on more complex cases and are instrumental in training and coaching other safety officers. Anthony's previous experience includes 10 years as a machinist, operating various metalworking machines.

Anthony has exceptional knowledge of the General Industry Safety Standards and has also received additional certified training in the following areas: Mechanical Power Press Guarding, NFPA 1 Fire Prevention Code, NFPA 101 Life Safety Code, Advanced Accident Investigation, Safety and Health in Sawmills and Logging Operations, Applied Spray Finishing and Coating Principles, Asbestos Awareness, Hydrogen Sulfide Gas, Oil and Gas Well Drilling Operations, and Hydrogen Sulfide Safety.
